## Ballot Box - Vote Vault

The ballot box is a vote vault. America is one of the few nations in the Free World where citizens can express their attitudes and ideological aspirations without fear of being punished. Yet, the U.S. has probably less participation at the polls, percentage-wise, than any democratic country.

Next Tuesday you will have the opportunity to elect officers of the Student Government Organization, homecoming queen and class officers. Your vote is your voice. If you don't exercise this patriotic privilege, you will be falling prey to political neglect -- the vile germ that has allowed freedom to deteriorate to dictatorships throughout the world.

## Fall Fashions For Fellows Promotes Plaid Patterns

BY ANDREA JONAS

Male academic attire will enroll, at least for a few courses, in the corduroy curriculum on campuses this fall. Hefty wale jackets with colorful loud linings are topping trousers in corduroy combinations to keep out cool weather and keep in most of your clothing budget.

Sweaters have stolen the racing car stripes--primarily in pullovers--and are competing with English and Great Scot patterns. Dupont and orlon wool with almost all of the designs which host a variety of neck holes--be they turtle-neck, crew, or V-throat.

Men are checking into class with checks. Sport jackets have fallen for the fashion that is bedecked with rather muted and minute--like small squares--checks. Sport shirts got the same textile treatment on the tailoring tables this year. Plenty of plaids with a trace of gold color in them are topping the casual slacks which if you are brand wise are obtainable in good men's stores for a very modest investment.

When the temperature drops, male knobby knees will still be able to bend. Bike coats dictate the style which has almost entrenched itself eternally with men who don't want to walk stiff-legged. Short length bike coats are available in a multitude of cuts and colors--all of them attractive. Your stride isn't restricted when you have to run for class in these coats. Your legs can move cause they aren't encased in ancient long lengths. Fronts of bike coats offer all sorts of fasteners. Originality and practicality have finally produced something in fasteners. Wood, steel, and leather have all but replaced the traditional buttons and zippers.

Wet weather wear has been streamlined. No more plastic parachutes that are supposed to be rain coats. Precipitation

coats have gone slim and trim. Handsome fabrics that repel the elements add neatness to your attire. Rain coats are also shorter. A matching hat makes you in one of the better brands, such as Aquascutum, Wales, 007, London Fog, or Plymouth, welcome the wet.

Is the YF-12A the world's fastest manned aircraft? It certainly is. On May 1 of this year the YF-12A (formerly known as the A-11) reclaimed the world absolute speed record from the USSR. It was clocked at 2,062 mph over Edwards Air Force Base.

**How big is the YF-12A?**

The exact dimensions of the YF-12A have not been released yet. But it's approximately 100 feet long, with about a 50-foot wingspan. That's half again as big as our present interceptors!

**Is the Air Force training many men as pilots these days?**

Yes, very definitely. In spite of all you hear about unmanned vehicles, the human pilot is still very much in the picture. As a matter of fact, the Air Force pilot quota is on the increase.

**What other kinds of jobs does the Air Force offer?**

Since it's one of the world's foremost technological organizations, the Air Force has plenty of openings for scientists and engineers. There are also many challenging and varied administrative-managerial positions.

**What do I have to do to become an Air Force officer?**

Air Force ROTC is the best way to get started as an

Air Force officer. The new two-year Air Force ROTC program makes this method available to men who have already completed a year or two of their college education. For college graduates, if you did not take advantage of ROTC, you can still get started through Air Force Officer Training School (OTS), a three-month course open to both men and women.

**Can I keep up my studies while I'm in the Air Force?**

The Air Force encourages its men and women to continue their educations. For instance, you may qualify to study for a graduate degree during off-duty hours, with the Air Force paying a substantial part of the tuition.

**What kind of future do I have in the Air Force?**

A bright one. As we move further into the Aerospace Age, the Air Force is going to grow even more important. And you can grow with it!

### Vols Seek Revenge From Delta State

This Saturday The University of Tennessee Martin Branch Vols travel to Cleveland, Mississippi, for an afternoon football game with Delta State College.

The Volunteers will go into the game with a 0-2 record thus far and will be seeking revenge against a team which beat the Vols 17-0 last year in the UTMB Homecoming game.

The Governors have 25 lettermen returning to a team which posted an impressive 7-3 record last year. In their seven previous encounters DSC holds a 5-2 edge over UTMB.

Delta State's record this far is unblemished. They are undefeated and unscored upon. This will be one of the biggest teams the Vols will face. Their line averages just over 220 pounds, and the backfield average is 202 pounds.

According to Vol head coach Robert Carroll, the Governors are a powerful team with a good passing attack. This will be Delta's homecoming, and they are always tough at home but it should be an interesting ball game.

Game time is 2 p.m., CST. Radio station WCMT will present the playback of the game Sunday afternoon.

### UTMB Is Defeated By Blue Raiders

The so far luckless football team lost its second game in as many starts last Saturday night to Middle Tennessee State University in Murfreesboro 24-14.

Once again fumbles, which have plagued the Vols all year, made the difference between victory and defeat.

The MTSU Blue Raiders received the opening kickoff, but stout defensive play by the Vols forced them to punt. Mack Moody, a 175 pound wingback, fielded the punt on his own eight yard line but fumbled, and MTSU recovered. Three plays later Raider speedster Bob Hlodan scampered 7 yards around left end for the touchdown.

The Vols received the kickoff but were unable to move against the MTSU defense and were forced to punt on fourth down.

The second quarter saw the Raiders score twice.

With time running out in the first half the Vols caught fire. Taking advantage of a pass interference penalty against the Raiders which put the ball on the MTSU one yard line, quarterback Sandy Smith pushed over for the Vols first touchdown. A two point conversion by Larry Shanks left the score 24-8 at halftime.

Late in the third quarter the Vols mounted a sustained drive which culminated in a 9 yard touchdown pass from Sandy Smith to Mack Moody.

### As It Looks From Here

BY BILL BENSON

So far this year the Vols have really had their troubles.

Against both Arkansas State Teachers and Middle Tennessee costly mistakes in the form of fumbles and penalties have halted scoring threats.

In last Saturday night's game against the Middle Tennessee Blue Raiders, the Vols showed some of the potential greatness this writer feels they possess.

Each year the schedule gets tougher, and this year's schedule will prove to be no exception. Likewise, the quality of football here has improved, and this year's team could be one of the finest yet.

In many opinions the Orangemen will be underdogs against Delta State and comparing their records perhaps this is as it should be. The only trouble with that reason-

ing is that statistics are compiled after the game.

A victory this week is almost a must for the Vols, and they realize this. When they take the field against DSC, each player must believe he is a winner.

In their two previous encounters the Volunteers have stopped themselves to a large degree by their own mistakes. If they overcome these mistakes, as they must to beat Delta State, the Vols will be hard to stop from here on out.

The student body can help these boys prepare themselves mentally for this game. They need to know that we are behind them. They need to know that we feel the Vols are winners. Give them your support and encouragement, for after all we all are UTMB Volunteers.
